

# 2<sup>nd</sup> Regional Aquafeed Forum

Hanoi, 2<sup>nd</sup> – 3<sup>rd</sup> July 2010

Australian Government  
Australian Centre for  
International Agricultural Research

The Sustainable Aquafeeds Project of the Australian Centre for International Agricultural Research (ACIAR) is planning to hold a second research forum on aquafeed technology. This year, hosted by *Research Institute for Aquaculture – 1*, over two days twenty scientific talks are planned on a broad range of aquafeed issues. Key scientific issues to be discussed include:

- nutrient requirements for marine fish and crustaceans
- use of alternative raw materials in aquafeeds
- socioeconomic analysis of the impacts of feeds

If you would like to contribute a talk, please get in soon so we can fit you into the 20 talk agenda.
